## PROFILE

I am a Front-End Developer with 2 years of experience in building responsive, user-friendly websites and web applications. I possess strong skills in HTML, CSS, JavaScript, React, and Next.js. I am passionate about writing clean code, ensuring optimal performance, and creating exceptional user experiences. As a quick learner and a collaborative team player, I am always ready to embrace new challenges and opportunities for growth

## EXPERIENCE

### Front-End Developer

#### Freelance Upwork)

07/2023 01/1970    Remote

Freelance front-end development work focusing on building custom websites

- Collaborated with clients globally to design and develop custom websites using JavaScript and React
- Built fully responsive, SEO-friendly pages with clean code and fast loading times, improving client satisfaction and engagement
- Maintained strong communication with clients to gather requirements, provide updates, and deliver projects on time and within scope

### Front-End Developer

#### Services Website Project

03/2023 08/2023    Remote

Development of a multi-page service website focusing on user experience

- Led the front-end development of a multi-page services website using Next.js, Tailwind CSS, and Framer Motion
- Implemented fully responsive design, service-based animations, and smooth navigation across all devices
- Optimized performance and accessibility, achieving high Lighthouse scores and excellent UX feedback from users

### Front-End Developer

#### Task Master

09/2022 06/2023    Remote

Work on web applications with a strong focus on SEO and user experience

- Developed and maintained responsive web applications using Next.js and Tailwind CSS, focusing on performance, SEO, and user experience
- Designed and launched a custom Shopify store (supremestore.com), aligning the brand's identity with modern UI/UX practices to boost user engagement
